**ADDENDUM NO. 1
BID OPENING: October 29, 2013**

TO: ALL BIDDERS
FROM: JOHN CASSIDY, BUYER
DATE: October 15, 2013
RE: RFQ 51114Q0025

This addendum is issued prior to bid opening to provide correct information based on questions received.

Question: The description of the Maysteel enclosure references dwg#63350947 12/5/02 but it was not included in the specification. Is that drawing available and can I get a copy?

Answer: The reference drawing # should not have been listed that was for a different substation, each substation is different depending on Amerens power supply in the location.

Question: Does the enclosure have to be Maysteel?

Answer: Only Maysteel is acceptable, no substitutes.

Question: Is there a set of detail drawings that show location of assembled components and any inter-wiring required? If not, is it up to the panel builder's discretion?

Answer: Details of the assembled components is part of their submittal drawings.

All bidders must attach this form to the original Bid/Quote Form. This completed, signed form will serve as acknowledgement That this information has been received.
